1973 EMI Records Limited

7401 D.P.

This stereo tape gives mono reproduction when played on mono equipment. It has been recorded with the DOLBY B-type noise reduction characteristic. If playback equipment incorporates a DOLBY noise reduction circuit, switch the circuit on to gain the benefit of noise reduction. On non-DOLBY equipment quiet high frequency signals will sound brighter and clearer.

This Stereo "Musicassette" Also Gives Genuine Monaural Reproduction

EMI Records Ltd
